

Sequential and Binary Search

Dr. Obed Noé Sámano Abonce

Searching Algorithms

Sequential vs Binary Search

Searching Algorithms

Workshop

Working in pairs, solve the worksheet available in Canvas:

Search algorithms.

- Sequential search.
- Binary search.

Resources:

- [Video Sequential vs Binary search](#) 
- [Worksheet: Search on paper](#) 

This is a formative activity; you don't have to submit anything.

Searching Algorithms

Workshop

Implement both algorithms in C++ using templates so that they can work with any comparable type.
